

7. Fire and Rescue Authority Plan 2012-2013 Quarter 1 and 2 Performance Analysis

Purpose of report

1. To provide the Policy and Resources Committee with a summary of Quarter 1 and 2 performance against the Fire and Rescue Authority Plan 2012-13.

Recommendation

The Chief Fire Officer recommends that the Policy and Resources Committee note the contents of this report.

Introduction

2. This report aims to provide an update on Quarter 1 and 2 performance against the Service's performance compared to the 2012-13 Fire and Rescue Authority Plan. In contrast to previous Quarter 2 reports, this report focuses on the cumulative Quarter 1 and 2 performance to date, rather than examining Quarter 2 performance in isolation.

Quarter 2 Performance Year to Date

3. Quarter 1 and 2 combined saw a similar number of incidents compared to Quarters 1 and 2 combined last year. Although Special Service incidents have increased due in part to the flooding at the end of June 2012 and beginning of July 2012, the overall numbers of fires have reduced as the expected seasonal increase in secondary fires has been negated by the predominantly wet weather conditions during the two Quarters. False alarms have remained consistent with previous Quarter 2 levels.
4. Each individual Key Performance Indicator was tested against the tolerance levels expected for Quarter 2 and only one was out of tolerance at the end of Quarter 2, which was the number of days lost to non-uniform staff sickness per head. This is analysed in Appendix 1 together with an overview of overall operational activity, a summary of information requests received by the Service and an analysis of Retained Appliance availability that was proposed as being a standard item of future quarterly reporting.
