

Appendix 1

Prudential Indicators 2013/14 Out-turn

Introduction

The Prudential Code for Capital Finance in Local Authorities (Prudential Code) has been developed by the Chartered Institute of Public Finance and Accountancy (CIPFA) to provide a code of practice to underpin the new system of capital finance embodied in Part 1 of the Local Government Act 2003.

The key objectives of the Prudential Code are to ensure that capital investment plans are affordable, prudent and sustainable.

The Prudential Code supports a system of self-regulation that is achieved by the setting and monitoring of a suite of Prudential Indicators that directly relate to each other. The indicators establish parameters within which the Fire and Rescue Authority (FRA) should operate to ensure the objectives of the Prudential Code are met.

Prudential Indicators

The Prudential Indicators for which the FRA is required to set limits are as follows:

1. Capital Expenditure

The actual amount of capital expenditure that was incurred during 2013/14 was as follows:

	2013/14 Original Feb 2012 £m	2013/14 Forecast Feb 2013 £m	2013/14 Actual £m
Capital Expenditure	11.656	10.739	2.772
Operationally Leased Assets	0.303	0.325	0.000
	11.959	11.064	2.772

Actual capital expenditure is lower than that original originally anticipated due to the following reasons:

- The vehicle replacement programme and minor capital projects have been put on hold pending the outcome of the CRMP
- Delays on major building projects.

2. Ratio of Financing Costs to Net Revenue Stream

Financing Costs include the amount of interest payable in respect of borrowing or other long term liabilities and the amount the FRA is required to set aside to repay debt, less interest and investments income.

The actual Net Revenue Stream is the 'amount to be met from government grants and local taxation' taken from the annual Statement of Accounts, and the estimated figure is the FRA's budget net of any transfers to or from the balances.

The indicator only requires that the costs associated with capital expenditure are measured in this way. However the FRA has used, and may continue to use Operational Leasing as a cost effective method of acquiring vehicles. In the spirit of the Prudential Code these costs are included for comparative purposes.

	2013/14 Original Feb 2013 £m	2013/14 Forecast Feb 2014 £m	2013/14 Actual £m
Financing Costs	2.569	2.506	2.378
Net Revenue Stream	31.286	31.286	31.286
Ratio	8.20%	8.00%	7.60%

3. Capital Financing Requirement

The capital financing requirement is a measure of the extent to which the FRA needs to borrow to support capital expenditure. It does not necessarily relate to the actual amount of borrowing at any one point in time. The FRA arranges its treasury management activity via a Service Level Agreement (SLA) with Worcestershire County Council (WCC) which has an integrated treasury management strategy where there is no distinction between revenue and capital cash flow, and the day to day position of external borrowing and investments can change constantly.

The capital financing requirement concerns only those transactions arising from capital spending, whereas the amount of external borrowing is a consequence of all revenue and capital cash transactions combined together following recommended treasury management practice.

	Original Feb 2013 £m	Forecast Feb 2014 £m	Actual £m
Capital Financing Requirement (CFR) 31 March 2014	17.900	17.064	16.506

4. Authorised Limit

The Authorised Limit represents an upper limit of borrowing that could be afforded in the short term but may not be sustainable.

5. Operational Boundary

The Operational Boundary represents an estimate of the most likely, prudent, but not worst case scenario and provides a parameter against which day to day treasury management activity can be monitored.

The limits for these indicators set for 2013/14 and the final out-turn are given below, and it can be confirmed that the out-turn figure represents the maximum borrowing at any point in the year, i.e. the Authorised limit was not exceeded.

	2013/14 £m
Authorised Limit	30.000
Operational Boundary	27.000
Actual Borrowing 31 March 2014	14.471

6. Fixed Interest Rate Exposures

The FRA set an upper limit on its fixed interest rate exposures as follows:

Fixed Interest Rate Exposure	2013/14 £m
Upper Limit	30.000
Actual Borrowing 31 March 2014	14.471

7. Variable Interest Rate Exposures

The FRA set an upper limit on its variable interest rate exposures, however all current borrowing is at fixed rates.

8. Maturity Structure of Borrowing

The upper and lower limits for the maturity structure of borrowings are as follows:

Period of Maturity	Lower Limit	Upper Limit	Actual
Under 12 months	0.000	3.618	0.500
12 months and within 24 months	0.000	3.618	0.834
24 months and within 5 years	0.000	7.236	2.500
5 years and within 10 years	0.000	10.853	4.802
10 years and above	3.618	13.747	5.835
