

HEREFORD & WORCESTER
HWFR
FIRE AND RESCUE SERVICE

Prevention Cause of Concern Action Plan

31 March 2022

How Hereford & Worcester Fire and Rescue Service
Keeps the Public Safe Through Prevention Activity

Strategic Lead: Anna Davidson – Assistant Director: Prevention

Cause of concern:

Prevention activity is not a sufficiently high priority for the service, and it is not adequately identifying those most at risk from fire.

Recommendations:

By 31 August 2021, the service should have plans in place for:

1. An effective system to define the levels of risk in the community.
2. The development and delivery of a prevention strategy that prioritises the people most at risk of fire and ensures that work to reduce risk is proportionate.
3. The review of systems and processes for dealing with referrals from partner agencies. This is to make sure they are managed effectively, and the backlog of safe and well visits is reduced and resourced in accordance with risk.

Detailed Findings:

We found that the service does not have a clear prevention strategy that identifies and prioritises those most at risk from fire. The service is making very limited use of risk modelling information to ensure prevention activity is targeted at the most vulnerable. We were concerned that prevention activity is not a sufficiently high priority for the service, and it has limited productivity when compared to other similar Fire & Rescue Services. There is limited capacity in the prevention team to deal with referrals, post fire prevention activity and campaigns. There is currently a backlog of referrals for the prevention team to complete and at the time of the inspection operational crews were doing very limited prevention activity. As was found in the round one inspection in 2018, there is also limited evaluation of prevention activity to assess its impact.

What does good look like?

The FRS has developed and implemented an ambitious prevention strategy which is informed by local risk and complies with statutory requirements.

The FRS prevention plan is clear about where the greatest risks lie within its area and sets out a clear rationale for the level of activity to prevent fires and other risks.

The FRS uses the findings from prevention, protection and response activity to adapt its prevention plan. FRS prevention activity meets community expectations, and its core functions are sustained regardless of other discretionary priorities for the FRS.

The FRS targets its communications to provide information about fire prevention and to promote community safety. The FRS has a comprehensive understanding of the diverse needs of its communities and ensures that its engagement and communication is designed to be appropriate and accessible to meet those diverse needs.

FRS staff are able to recognise the opportunity to prevent fires and other risks, and are able to take appropriate action.

The FRS works with other FRSs, a wide range of partner organisations and diverse sections of the community to reduce the number of fires and other risks.

The FRS evaluates the impact of its prevention activity and uses this evaluation to improve its own and partners' approaches.
