Hereford & Worcester Fire and Rescue Authority

Budget 2012/13: Explanation of Variations in Appendix 1

Change in Treatment

The Localism Act has changed the detail of the way Local Authorities calculate their Council Tax (but it has no impact on the final calculation. Previously there was an obligation to calculate a "Net Budget Requirement" as a first stage. Some items of grant were deducted before arriving at this figure and other similar grants were treated afterwards. Under the Localism Act the Council Tax Requirement is the only calculation required. To simplify matters going forward, the budget is adjusted to remove all grants

Pay Award Contingency

Local Government employees will have completed the 2 year pay freeze by 2012/13 and a provision is made in line with the second stage of the Chancellors public pay policy - limited to 1%.

General Inflation Contingency
Averages 4.3% overall (with higher provision for fuel, business rates and utilities) and partially reflects the fact that average inflation over 2011/12 was over 4%, but only 3% was provided in the budget.

LGPS - Increased Contribution Rate
The last valuation of the Worcestershire Pension Fund requires an increase in annual employer contributions.

(Line 12

Impact of Asset Management Plan & Vehicle Strategy
The changes reflect the overall additional capital financing charges arising from the capital programm
The impact shown includes interest, provision for repayment and vehicle lease rentals. It is net of the
current Treasury Management position in relation to risk and consequent interest receivable.

Cessation of Commercial Training (Line 15)

The amount of external training provided by the Training Centre has declined over time and the level of income significantly reduced. A review has identified that the training now costs more to deliver than the income generated.

Control Resilience Project - Running Costs

These are short term costs associated with the necessary dual running of new and old systems in the cut-over year. The MTFS projection shows these dropping dramatically from 2013/14.

RDS- Settlement of Part Time Working Issues (Line 17)

The annual cost of changes to the terms and conditions of RDS staff following settlement of this long running national issue. Operational Equipment Additional provision for replacement of equipment that has now become obsolete. In particular thermal

педначением по терначением от ефицеппент triat has now become obsolete. In particular thermal imaging cameras where parts are no longer available and common equipment across all appliances is essential

Property Maintenance Provision for additional maintenance costs as significant electrical installations are obsolete and require replacement and pending legislation regarding air-conditioning systems

Fire-fighter Pensions As the old Pension scheme was closed to new entrants in 2006, new starters join the new scheme which has a lower notional employers contribution.

Redundancy Restructuring
To meet the future budget pressures a review of activities has identified different ways of under-taking activities which has resulted in a net reduction in support posts of 13 (11.2 FTE). This is not being achieved without redundancies some of which may be compulsory.

(Line 24)
Further review of activities involving removal of posts not involving redundancy and the compulsory redundancies (4) made in 2011/12. Other Restructuring

2011/12 Base Budget Savings
Savings identified by budget holders in 2011/12 that can be permanently removed from the budget

Operational Logistics (Line 26) Diversion of some of the base budget savings to strengthen the Operational Logistics function to bette support front line operations - including hydrant inspection and vehicle maintenance

One-Off (2012/13 only) Costs (Line29)

Cost associated with redundancy, that are not on-going.

Hereford & Worcester Fire and Rescue Authority

Budget 2012/13 : Council Tax Requirement Calculation

Following the Localism Act 2011, there is no longer a requirement for an Authority to calculate a Net Budget Requirement in order to calculate the Precept. The new Act requires only that a Council Tax Requirement is calculated. Although this process is different to that used previously, the outcome is the same and the 2011/12 calculation is shown as well for clarity.

	2011/12	2012/13
